22ND WORLD CONGRESS ON IN VITRO FERTILIZATION

THEME : NO BORDERS IN ART

NOVEMBER
7th - 9th

2024

**MOROCCO
MARRAKECH
PALAIS DES HABOUS**

DAY 1	Hall A : Gynecology			Hall B : Embryology & Genetics			Hall C : Surgery & Radiology			Room 1			Room 2	Room 3	
	Session	Lecture	Speaker	Session	Lecture	Speaker	Session	Lecture	Speaker	Session	Lecture	Speaker			
Thursday 7th	14h30	Inauguration speech													
	Key note to be validated	Fertility as a marker of general health and long term follow-up of ART mothers	S. Hamamah												
	PCOS : Polycystic Ovary Sindrom 15h - 16h30	Understanding Polycystic Ovarian Syndrome	Y. Ait Benkaddour												
		Fertility management in PCOS patients	Y. Khalaf												
		OHSS Free Clinic : dream or reality?	D. Baldani												
		Refractory PCOS : how to manage ?	S. Palomba												
	Symposium 16h30 - 17h	Psychological aspect of the Ovarian Polycystic Syndrome	I. Louanjli												
		Future of Contraception	Althéa												
	Coffee Break														
	Repeated implantation failure 17h30 - 19h	Determining diagnostic criteria, causes and pathophysiology of repeated implantation failure (RIF).	H. Sallam	Fast and Furious ART	Short insemination IVF protocols	A. Doshi									
Autoimmunity, systemic inflammation and RIF. Is CE the missing piece of the jigsaw?		T. Motrenko	Short Oocytes vitrification and thawing protocols		J. Liebermann										
Approaches from the point of sperm and embryo to improve Implantation in RIF.		M. Benkhalifa	Short Blastocystes vitrification and thawing protocols		J. Liebermann										
Approaches from the point of Endometrium to improve Implantation in RIF.		A. Makrigiannakis	rescue ICSI for failed Fertilization or for immature eggs ?		A. Doshi										
Industry Symposium	PGT- A FOR ALL OR FOR SOME														

DAY 2	Hall A : Gynecology			Hall B : Embryology & Genetics			Hall C : Surgery & Radiology			Room 1			Room 2	Room 3	
	Session	Lecture	Speaker	Session	Lecture	Speaker	Session	Lecture	Speaker	Session	Lecture	Speaker			
Friday 8th	Key note : 8h30 - 9h	Obstetrical outcomes for the babies from ART	Anja Pinborg	Future of ART	Human Embryo Culture Media: it is time for Enhanced Transparency	Vitrolife (David Gardner)	Fertility preservation	Ovarian stimulation in cancer patients : are there disease-specific considerations in terms of outcomes and safety ?	M. Khrouf	Abstract lectures and poster discussion					
	Adenomyosis and Fibroids 9h - 10h30	adenomyosis, uterine contraction and implantation	V. Tanos		Embryo Implantation: Assessing the Current Landscape	Vitrolife (Carlos Simon)		Oncofertility in female: OTC or oocyte vitrification ?	J. Smitz						
		The impact of adenomyosis cytoreductive surgery in infertility patients	C. Chapron		Automation in IVF	Y. Cabello		« Fertility preservation for DOR and endometriosis »	M. Khrouf						
		Removal of G3 fibroids in infertile patients feasibility and utility	A. Di Spiezio		Modeling human implantation in vitro: insights into embryo aneuploidy	M. Popovic		Establishing a modern fertility preservation program : keys of success	C. Wyns						
		New procedural approaches for fibroids and adenomyosis	R. Pabuccu												
	Coffee Break														
	Congenital uterine abnormalities 11h - 12h30	Management of hypoplastic and T-shape uterus in infertile women	L. A pacheco	Embryology 1	what should embryologist Know and resolve	T. Ebner	The Controversies Session	Can sperm selection improve pregnancy rates ? YES/NO	H. Russo / Y. Cabello						
		Management of cervical incompetence : real indications and surgical techniques	A. Watrelot		Air quality and environment in the IVF Lab	X. Pollet		Ovarian rejuvenation : Is it possible ?	Y. Khalaf						
		hysteroscopic subtle lesions in infertile patients	S. Gordts		Current consensus on embryo assessment and grading	B. Balaban		Genom editing : what are we doing ?	S. Viville						
		Uterus Septum : Criteria, surgical technics and their impact on reproductive outcomes	A. Di Spiezio		The duration of cryo storage impact on Oocytes and embryo outcome	S. Hamamah									
	12:30 - 13:15	Industry Symposium					12:30 - 13:15	Industry Symposium							
	Lunch Break														
Keynote to be validated	Fighting infertility: A call for governments to recognize decreased human fertility as a major public health problem	S. Hamamah	FFER	Does sperm quality impact blastulation rate ?	C. Methorst	AFFS				Video Surgeries					
Microbioma and reproduction 14h30 - 16h	Uterine microbioma and its impact on endometrial receptivity and chronic endometritis	T. Gurgan		Usable blastulation rate and risk factors	S. Hamamah	Endometriosis	pain or infertility : what is first ?	C. Chapron							
	How to diagnose and treat reproductive problems related to microbioma disorders	A. Makrigiannakis		Vascular disorders in FET pregnancies without corpus luteum	S. Epelboin	sclerotherapy for endometriomas When and how ?	O. Sefrioui								
	How to treat impaired receptivity of the uterus in fibroids, adenomyosis and endometriosis	Y. Osuga				Deep endometriosis management : impact in infertile patients	M. Zarqaoui								
Hot topic 16h - 16h30	How to rescue patients with multiple pregnancy failures due to low quality embryos.	Y. Morimoto	Hot topic 16h - 16h30	Facing to RIF patient : what can we do ?	N. Chevalier - N. Sermondade		Surgical intervention in infertile patients : What does make sense?	G. hudelist							

Coffee Break

Hot Debated Topics 17h- 18h30	The culture media is very important for the embryo quality and success rates. YES/NO	S. Hamamah / Balaban	Andrology (B)	Sperm Investigation and WHO Criterias : Are we still doing well	C. Barrat	Progesterone	Is it still a mystery for luteal phase support	E. Tavmergen	Video Surgeries
	Artificial Intelligence can make very important impact on IVF success. YES/NO	X. Pollet / Sallam		impact of EDCs on spermatozoa genome and epigemome	M. Benkhalifa		Regulation of progesterone production during the follicular phase in women	Y. C. Anderson	
	PGTA-A: is it underused ? Yes Or No	Chamayou / Khalaf		The hidden face of the spermatozoa and Oocytes activation	M. Benkhalifa		Novel protocols for programming FET cycles	N. Polyzos	
	Add ons in IVF lab	Y. C. Anderson							
18h30 - 19h	Stem cells in reproduction	A. Fekih		News tools for sperm selection	H. Russo		The best routes of progesterone in FET cycles	H. Boudrar	

DAY 3	Hall A : Gynecology			Hall B : Embryology & Genetics			Hall C : Surgery & Radiology			Room 1			Room 2	Room 3	
	Session	Lecture	Speaker	Session	Lecture	Speaker	Session	Lecture	Speaker	Session	Lecture	Speaker			
Saturday 9th	Key note : 8h30 - 9h	Obstetrical consequences of FET and impact on long term maternal health (hot topic)	Von Versen Hoynck	Embryology 2	Time lapse and AI for embryo selection: it's really help	T. Ebner	ISAR	Ovulation induction in hyper responders	A. Baxi	Abstract lectures and poster discussion					
	Endometriosis medical management 9h-10h30	Pain management in endometriosis patients	E. Somigliana		New developments in human IVM and understanding of human oocyte maturation	Y. C. Anderson		FOGSI	Topic fertility enhancing surgery in endometriosis		A. Kale				
		Endometrioma in infertile patients : the great dilemna	J.Fikri		CAPA-IVM inverting the physiology	J. Smitz	Topic fertility enhancing surgery in endometriosis		S. Tandulwadkar						
		Endometriosis and adenomyosis : management in the context of ART	E. Tavmergen		KPI's and QC/QA/QM	B. Balaban	PGT-A FOR ALL OR FOR SOME		A. Kale						
		Seamless management of adenomyosis from preconception to delivering a healthy baby	Y. Osuga												
	Coffee Break														
	Reproductive Surgery 11h-12h30	hydrosalpinges :is salpingectomy for all still the gold standard prior to IVF ? Pros / Cons	A. Watrelot with J. Fikri	Genetics and ART	RIF: the central role of the embryo in the definition and management of a clinical enigma	D. Cimadomo	SIRU	The mechanisms of endometriosis-related infertility	P. Vigano						
		Isthmocele : surgical management (hysteroscopy and laparoscopy)	A Di Spiezo & S Gordts		Identifying gaps : whole exome sequencing vs specific panels in reproductive medicine	I. Ratbi		Is endometrial receptivity and IVF outcome affected in women with adenomyosis	E. Somigliana						
		Tubal subtle lesions impact in infertile patients	A. Watrelot		The challenge of diagnosing chromosomal mosaicism for PGT-A	M. Popovic		Should women with PCOS be considered sub-fertile	S. Palomba						
		Management of intra-uterine adhesions	R. Pabuccu		Oocyte quality: molecular and morphological markers	D. Cimadomo		What is the morphokinetics of the best embryo	S. Chamayou						
	12:30 - 13:15	Industry Symposium	Merck group												
	Lunch Break														
	14h30 - 15h30	Industry Symposium		Reproductive Genetics	Genetics of infertility workup and genetic	S. Viville	JSAR	Piezo ICSI and PGT-A program with CNV and SNV analysis as an next generation of clinical ART in JAPAN.	T.Mukaida						
	Protocols in ART 15h30-17h00	New protocols in ovarian stimulation	N. Polyzos		POI and genome disorder	S. Viville		Strategic approach for recurrent implantation failures(RIF) in one of the biggest fertility center in JAPAN, including PRP infusion, intralipid, immunosuppressive therapy, etc.	M. Shiotani						
		Bistim or duostim	N.Massin		Expanded Carrier screening for couples seeking ART	I. Ratbi		Cine-MRI reveals uterine contractions that affect embryo implantation.	Y. Tokunaga						
		Dual trigger for all ?	V. Donno		Is there a genetic marker of non obstructive azospermia	I. Ziouziou									
	Curent understanding of DOR and its treatment	O. Sefrioui													

Coffee Break

Andrology A 17h-30 - 19h00	Medical management of OATS and non obstructive azospermia	C. Barrat	Telemedicine in ART and AI	IA and evidence based medicine (EBM) in IVF	X. Pollet	Radiology	Female Infertility: A Systematic Approach To Radiologic Imaging And Diagnosis	Allali			
	upgrade in Varicocelectomy : which grade for which attitude ?	I. Ziouziou		IA & EBM : The clinical perspective	TBD		Endometriosis Revisited: An Imaging Review Of The Usual And Unusual Manifestations With Pathological Correlation / MRI and US	TBD			
	Testicular or ejaculated spermatozoa ?	C. Wyns		IA & EBM : the embryologist perspective	X. Pollet		Fertiliscan a one-step ultrasound evaluation of female fertility	N. Massin			
	Stem cell for male infertility : new insights and hopes			PGT-A and AI	Symposium		Magnetic Resonance Imaging In The Evaluation Of Female Infertility	Allali
